

Scientific Techno Visions invites all the participants from all over the world to attend *World Congress and Exhibition on Industrial and Manufacturing Engineering* during **September 14 to 15, 2020** at **Barcelona, Spain** which includes Plenary, Keynote, Oral, Workshops, Poster presentations and Exhibitions.

WCEIME-2020: Aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Industrial and Manufacturing Engineering. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Industrial and Manufacturing Engineering.

WCEIME-2020 is anticipating participants from 100 and more countries across the globe and the two day conference will provoke plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

Conference Sponsor and Exhibitor Opportunities: -

The Conference offers the opportunity to become a conference sponsor or exhibitor. To participate as a sponsor or exhibitor, please download and complete The Conference Sponsorship Request Form.

YOUNG RESEARCHERS OPPORTUNITY

We make sure to support and motivate 'Young Researcher's by:-

1. Establishing their academic and professional relationships.
2. Improving their morale and confidence of presenting research in an international platform.
3. Interacting with expertise in their respective departments.
4. Clearing your inhibitions of adjusting to the foreign environment.
5. Providing a holistic experience of academic tourism.

The International Research Conference Aims and Objectives:

The International Research Conference is a confederate organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

CONFERENCE OBJECTIVES:

To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Industrial and Manufacturing Engineering research and development

To identify research and practice based innovations in optimizing Industrial and Manufacturing Engineering research and development

To debate gaps and priorities for sustainable development in optimizing Industrial and Manufacturing Engineering research and development

To discuss and debate the challenges and opportunities in the new era of optimizing Industrial and Manufacturing Engineering research reforms.

To identify opportunities for evidence-based practice in optimizing Industrial and Manufacturing Engineering research and development
